COLLEZIONE UOMO

CLASSIC COLLECTION

The brand POST&CO, master of Tuscan craftsmanship, undoubtedly owes its long history to its constant search for the highest quality materials available on the market and to its attention to every detail and fine leatherwork. But that is not all... POST&CO has always maintained client satisfaction as its top priority, guaranteed by supporting each client at all phases of interaction with the brand, from the placement the order to the delivery of the product. For this reason, the brand has developed a new service: a series of "basic" belts offered with stock service to the client, with a rapid delivery time, dispatched just one week after placing the order. The available models are classics, yet always in line with current trends. The proposed accessories are made using high quality hides and traditional craftsmanship, and with the same care and attention that has always set POST&CO apart. Each hide is in fact treated in a particular way, whether it is washed, heat-sealed, garment dyed or embossed with exclusive textures. The buckles have minimal, contemporary shapes, and come in silver, oxidized black, and brushed nickel finishes. This offer also includes exclusive skins such as crocodile and python, as well as horsehide, in both semi-sheen and nubuck. With this ample selection of articles, POST&CO seeks to offer a privileged service, including small orders of only a few items, so that the client may always be certain to have a complete assortment available in store.
